

METALCOOLERWORKS

Cooler model and packing references

Source set MCW-CAT-S1 | Reviewed 23 September 2026

About this source

This file reproduces product pages 2-6 of the supplied Dexing Shengshi Industrial & Trade Co., Ltd. catalogue. The original company-profile page follows at PDF page 7 so readers can check the four decoration processes. Original images and figures are retained. The catalogue does not state a publication or revision date.

PDF page	Original page / product references
2	2 / 7L, 13L, 17L and 28L carry coolers
3	3 / 7L strap, 15L, 20L standard and 30L chests
4	4 / 20L variants, 40L chest and 51L stainless reference
5	5 / 49L, 63L and 65L game coolers; 73L carts and wagon
6	6 / 50L speaker, 40L wheeled, 45L and 46L formats
7	1 / Supplier profile and decoration process descriptions

Use the source with the selected configuration

Capacities are nominal. Dimension order follows the supplier; usable internal measurements are not supplied. Carton sizes and loading quantities are planning references. The approved drawing, packed sample and written order specification control the purchased configuration.

The supplier profile contains company figures and certification statements. These are supplier claims, not independent verification or model-specific approvals by MetalCoolerWorks. Request the current issuer, scope and model-matched documents where required. Third-party artwork in sample photographs does not establish a customer relationship or endorsement.
